

**MARYSVALE – SILVER KING FIRE EWP PHASE 1: CLEARING AND GRUBBING**

DOCUMENT 001113

ADVERTISEMENT FOR BIDS

Sealed Bids for the construction of the **Marysvale – Silver King Fire EWP Phase 1** project will be received, by **Marysvale Town** online at **Quest CDN** until **2:00 pm** local time on **January 13, 2024** at which time the Bids received will be opened and read. The Project consists of the following: **Clearing and snagging operations to address flood risks worsened by recent wildfires. The work includes the removal of vegetation, fallen trees, and debris from stream channels and riparian areas, following NRCS Emergency Watershed Protection (EWP) standards. All trees with a diameter of 10 inches or less are to be removed 12” from existing ground to restore natural flow conditions, reduce obstructions, and enhance stream capacity ahead of the spring runoff. The project will target high-priority areas in Bullion Canyon and surrounding tributaries, focusing on debris clearance while minimizing environmental impacts.**

The Issuing Office for the Bidding Documents is: **Ensign Engineering, 225 N. 100 E., RICHFIELD, UT 84701 Kelly Crane; 435-590-0187, kcrane@ensignutah.com.** Electronic copies of the bid documents will be made available on Ensign Engineering’s website at [www.ensigneng.com/index.php/bid-access](http://www.ensigneng.com/index.php/bid-access).

Two pre-bid conference will be held on site on **December 16, 2024 at 2:00 PM** and another on **January 6, 2024**. All potential bidders are strongly encouraged to attend or visit the site. The last day for questions is **January 8, 2024**.

Bid security shall be furnished in accordance with the Instructions to Bidders.
